Subject: Greenfield Site at Dairy Farm Bungalow

The Neighbourhood Plan is good and the approach of only building on brownfield sites is correct. It is not a good idea to allow construction of new housing on important greenfield sites as this is detrimental to the village. Additional points to consider are

- A. The village school is full to overflowing and cannot deal with a further influx of children
- B. Gosditch is a very narrow road and is considered by many to be dangerous at times when children are arriving at or leaving school
- C. Access to the proposed site is not good and will add a further point of danger in the village
